& size of margins!

Manufactured to IPA Standards and Tolerances:
<http://www.iperf.org>

Margin dimensions may not be exact and are subject
to tool layout. Material with margins will not be
flat. See the IPA tolerances for out of flat
deviations.

Not recommended for Decorative Use.

Prices quoted for specials and nonstandard items
are 'Price in Effect at Time of Order' and subject
to change based on the metals material market and
material availability.

Lead time begins after receipt of final approved
drawings, credit approval and order acceptance.
